

Has this file been identified as malicious? Explain why or why not.

Yes this file was identified as malicious. This is because the file contains malware that will infect and compromise the computer.

File hash: 54e6ea47eb04634d3e87fd7787e2136ccfbcc80ade34f246a12cf93bab527f6b

A blue pyramid is divided into six horizontal sections. From top to bottom, the sections are labeled: TTPs, Tools, Network/host artifacts, Domain names, IP addresses, and Hash values. To the right of the pyramid, there are six light green rounded rectangular boxes, each connected to a corresponding section of the pyramid by a thin grey line. The boxes are staggered to the right, creating a staircase effect. The lines connect the right edge of each pyramid section to the left edge of the corresponding green box.
