Security organization worksheet

Part 1: Describe your security interests
● Detecting Vulnerabilities and Threats

Part 2: Identify three organizations and include their mission or objectives
● **Organization 1: HYAS - provides organizations with software that organize and help protect against all kinds of malware and attacks.** ● **Organization 2: Stamus - Provides advanced network detection and response systems with explainable results at an enterprise scale** ● **Organization 3: Cybereason - Brings in people from the military, government, and enterprise security with the goal of ending cyber attacks on the endpoint**

Part 3: Write out which organization aligns with your interests and why
● **Organization 1: HYAS** ● **Organization 2: Stamus** ● **Organization 3: Cybereason** ● **Best choice for my professional interests:** HYAS - I like the idea of detecting and potentially stopping and/or reversing the damage caused by different types of malware or attacks happening towards the company.
